

Around June 2017 and continuing for a few years, Sound Transit's construction to build East Link light rail will impact how you access Bellevue City Hall. The Bellevue Downtown Station is being built at the northern portion of the plaza area and will be connected to the tunnel that is being excavated along 110th Avenue NE. Construction is expected to be complete in early 2020.

Construction impacts near and on the City Hall campus include:

- Less visitor parking available during and after construction
- Temporary closure of the west driveway entrance in to visitor parking
- Permanent closure of the NE 6th Street access
- Construction work zone at the vacant lot adjacent to City Hall
- Construction of a mid-block pedestrian crossing at 110th Avenue NE
- Extended full closure of a portion of 110th Avenue NE near NE 6th Street
- Lane closures on NE 6th Street to build the station and elevated guideway over 112th Ave NE and I-405

# Access ●●● ●●● Bellevue

## *East Link construction impacts to Bellevue City Hall*

Accessing Bellevue City Hall during East Link construction may be challenging in the coming years, and we ask for your patience. The area around City Hall will be an active construction zone around June 2017. Please be safe and follow all flaggers' instructions and construction signs.

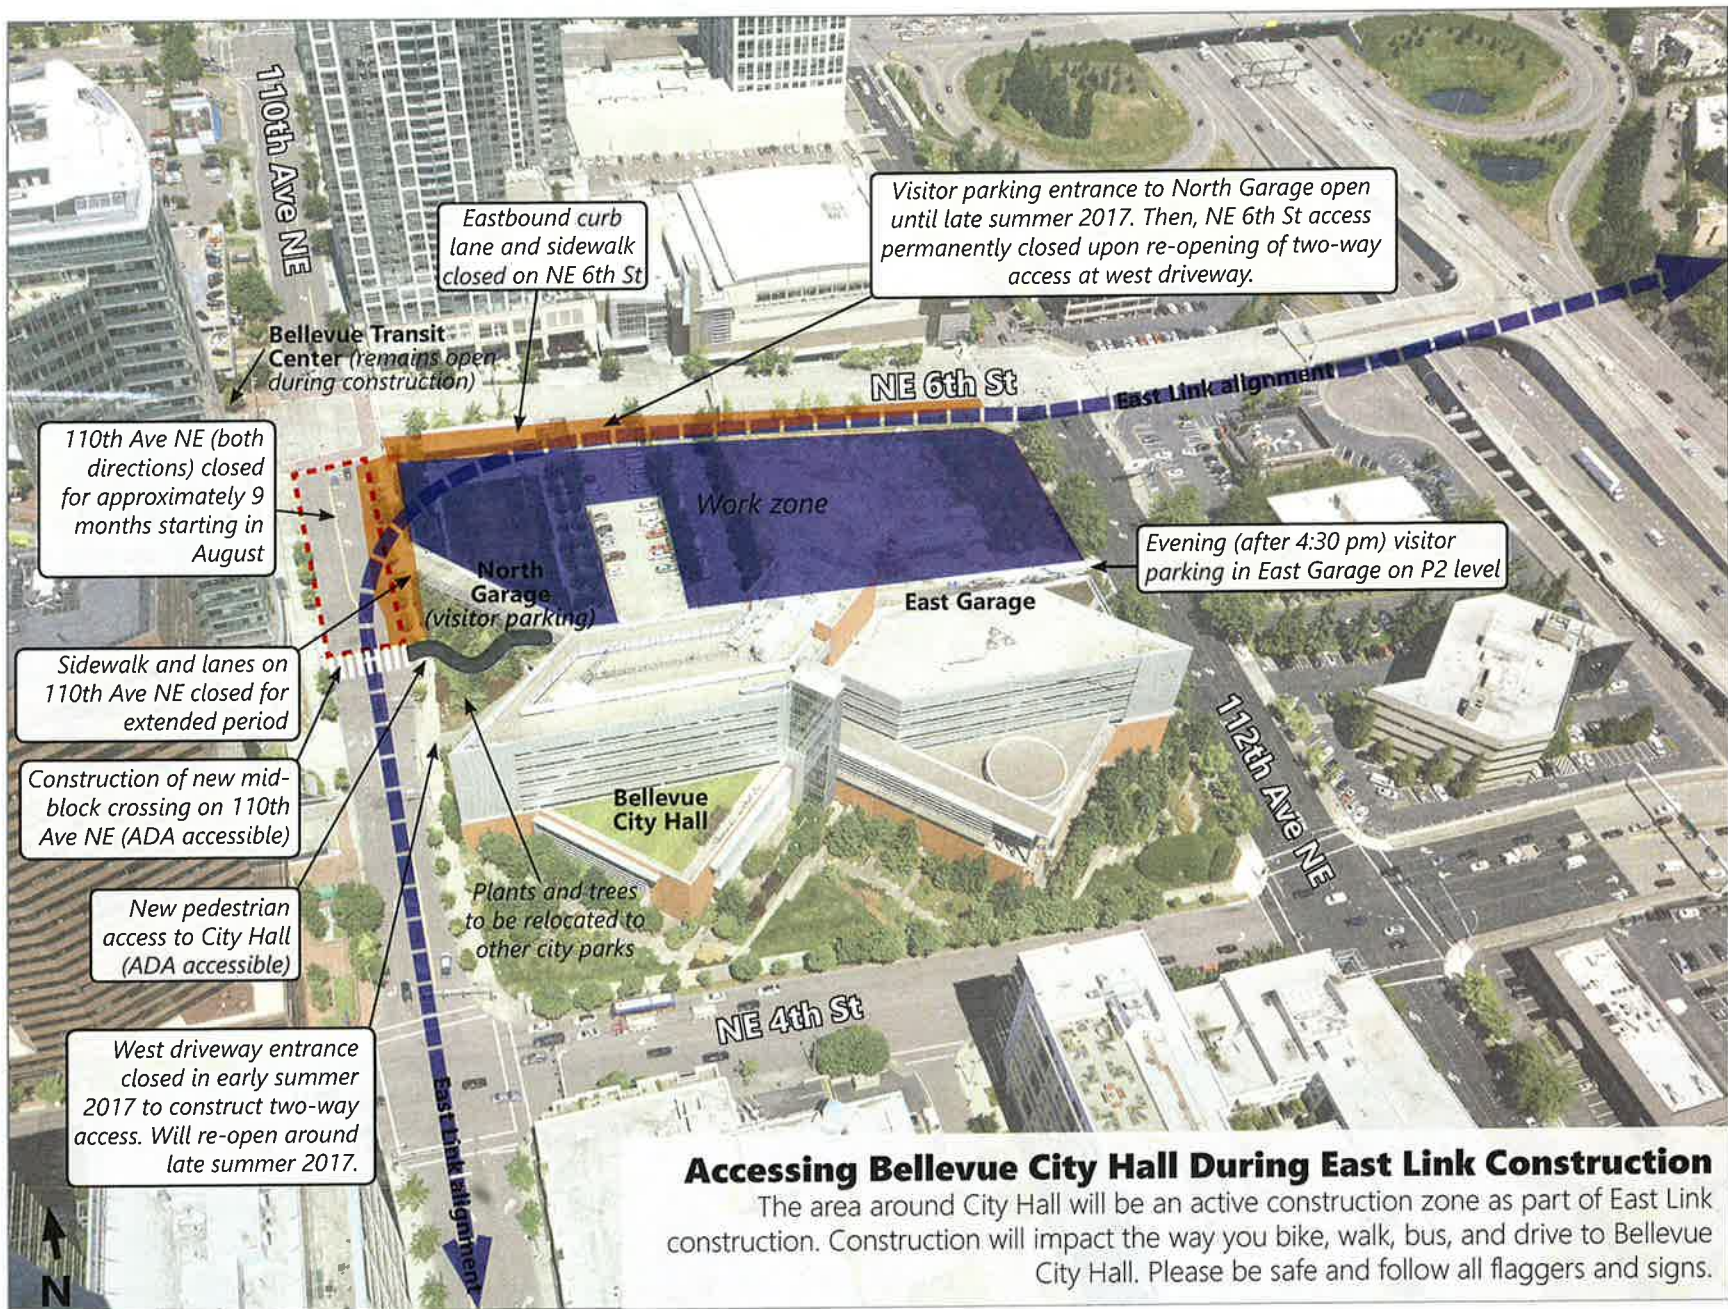

Visitor parking at City Hall will be prioritized for customers who are conducting business with the City or attending some city meetings including City Council meetings, public hearings, advisory boards and commission meetings.

Free evening parking for the public will be available after 4:30 p.m. in the East Employee Garage (P2 level), which can be accessed from 112th Avenue NE between NE 6th Street and NE 4th Street. The City's parking management services will be enhanced to assist daytime visitors.

City staff are committed to providing you exceptional customer service. Plan your next trip to City Hall by allowing extra time to complete your business with us. We look forward to seeing you next time.

- Eastbound curb lane and sidewalk closed on NE 6th St
- Visitor parking entrance to North Garage open until late summer 2017. Then, NE 6th St access permanently closed upon re-opening of two-way access at west driveway.
- Bellevue Transit Center (remains open during construction)
- 110th Ave NE (both directions) closed for approximately 9 months starting in August
- Evening (after 4:30 pm) visitor parking in East Garage on P2 level
- Sidewalk and lanes on 110th Ave NE closed for extended period
- Construction of new mid-block crossing on 110th Ave NE (ADA accessible)
- New pedestrian access to City Hall (ADA accessible)
- Plants and trees to be relocated to other city parks
- West driveway entrance closed in early summer 2017 to construct two-way access. Will re-open around late summer 2017.

**Accessing Bellevue City Hall During East Link Construction**

The area around City Hall will be an active construction zone as part of East Link construction. Construction will impact the way you bike, walk, bus, and drive to Bellevue City Hall. Please be safe and follow all flaggers and signs.
